# 1 FXGO mobile app (Android )

Download and install FXGO mobile app at “GooglePlay”  
<https://play.google.com/store/apps/details?id=com.tradetoolsfx.fxgo>

The mobile application greatly simplifies the very process of trading, which is characterized by a fairly tight schedule. With our FXGO mobile application for trading, you can trade without leaving your office, while in the car, going on a trip. The application allows you to configure the gadget notification system, which will promptly alert you about the current position of your account in the market.
