TradeToolsFX

1 FXGO Webtrader

1.1 Product description

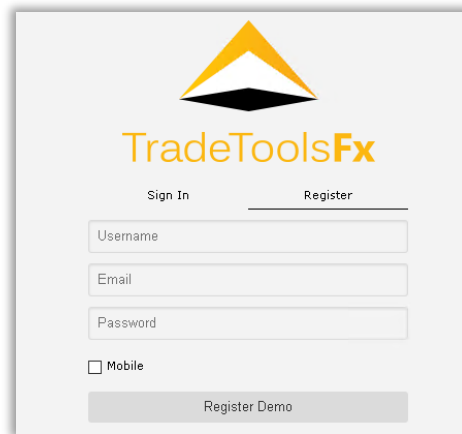

The web terminal is a separate TTFX-FXGO platform component that allows trading in the financial markets via a web browser. It works in all operating systems and browsers requiring no additional software. To enable the web terminal, order it in the Buy section of the technical support website.

1.2 Login to Trade Server

Open the web Browser and type in <http://fxgodemo.tradetoolsfx.com> or another url provided to you by your broker

1.3 Registering new Demo Account

If you don't have account on TTFX Trading server check box beside New user
Fill all fields on form

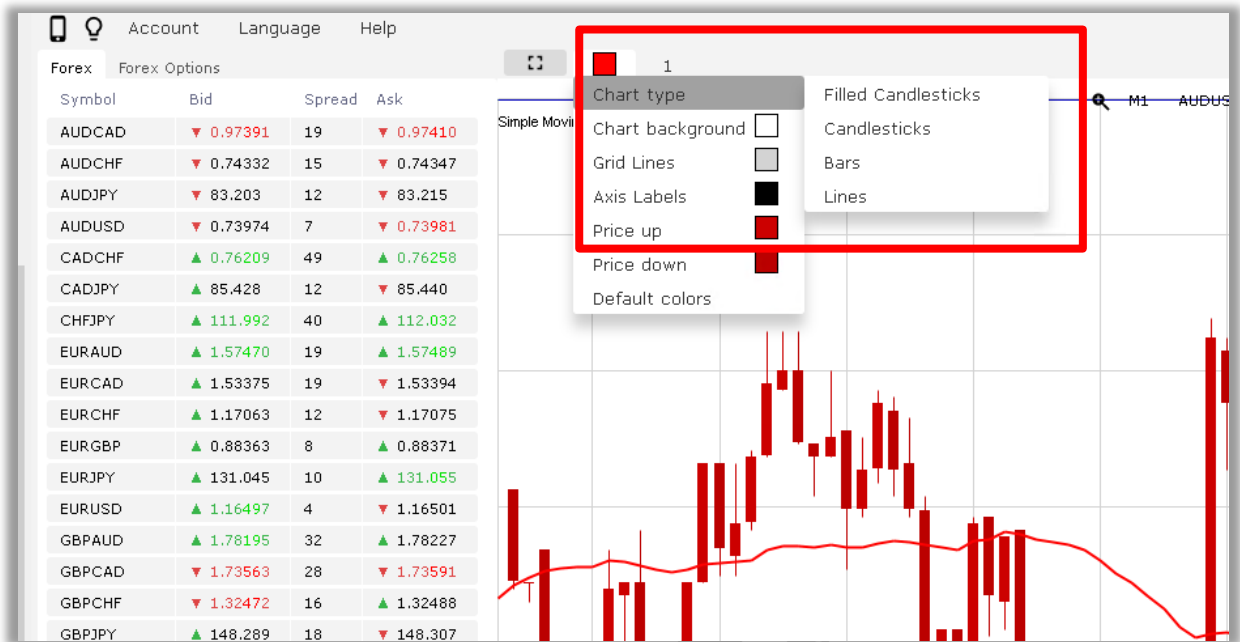

The screenshot shows the TradeToolsFx registration interface. At the top is the TradeToolsFx logo. Below it are two tabs: "Sign In" and "Register". The "Register" tab is selected. The form contains the following fields: "Username", "Email", and "Password", each with a corresponding input box. Below these is a checkbox labeled "Mobile". At the bottom of the form is a button labeled "Register Demo".

Specify your username, Email and Password then Click "Register Demo User"

1.5 Setting up the views

1.5.1 Charts customizing

You can customize:
chart type

number of displayed charts

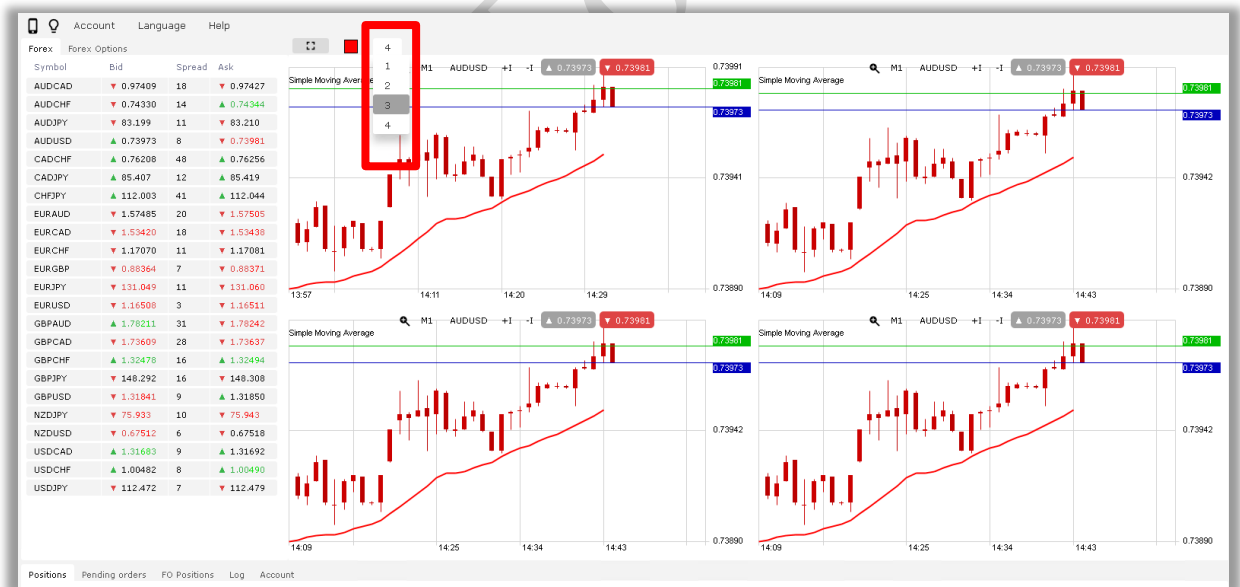

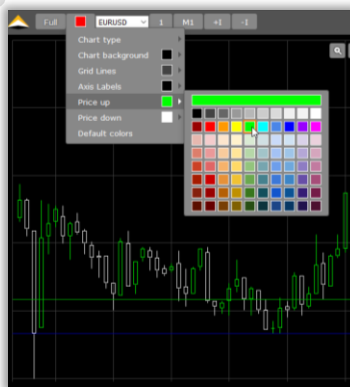

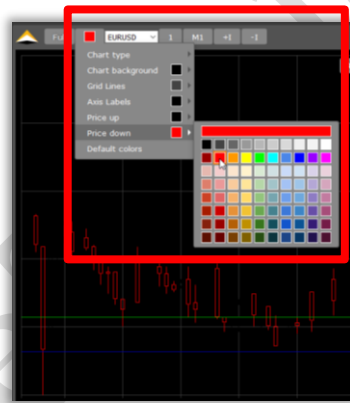

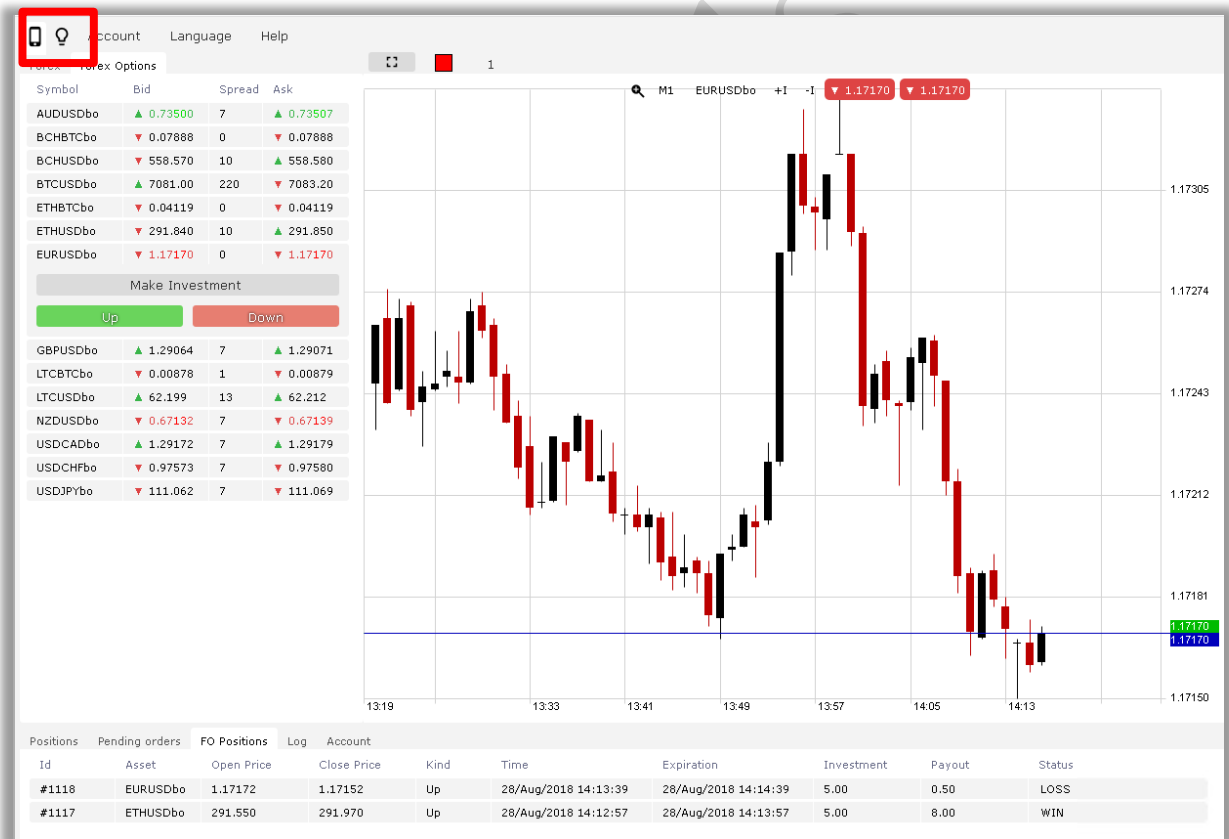

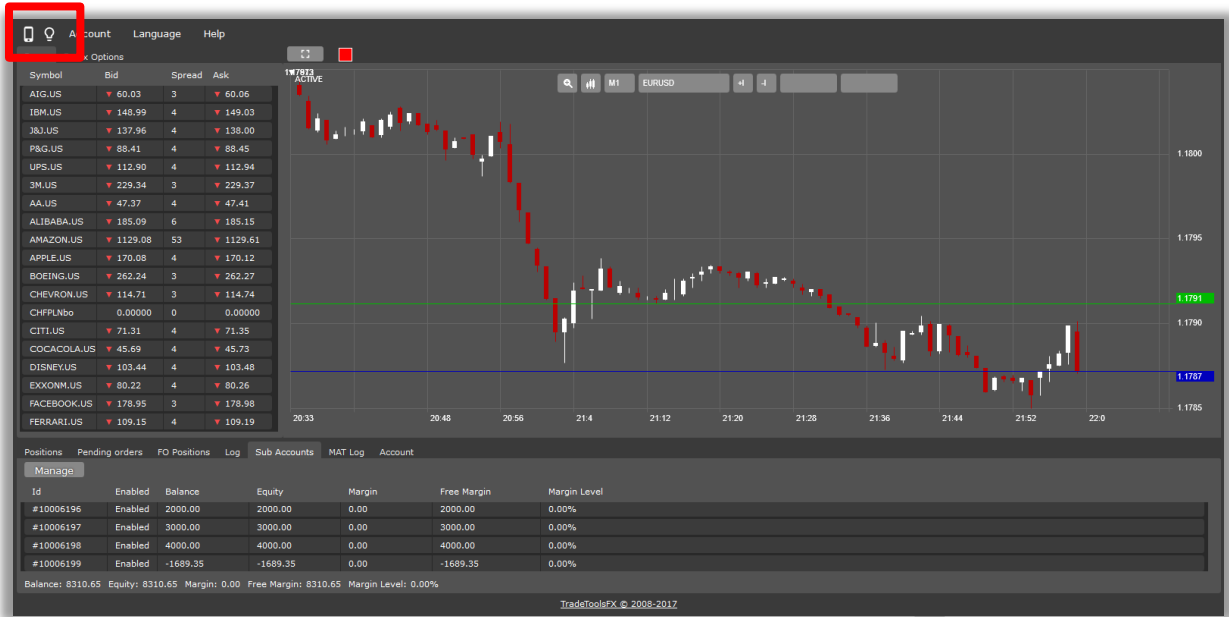

Chart time frame

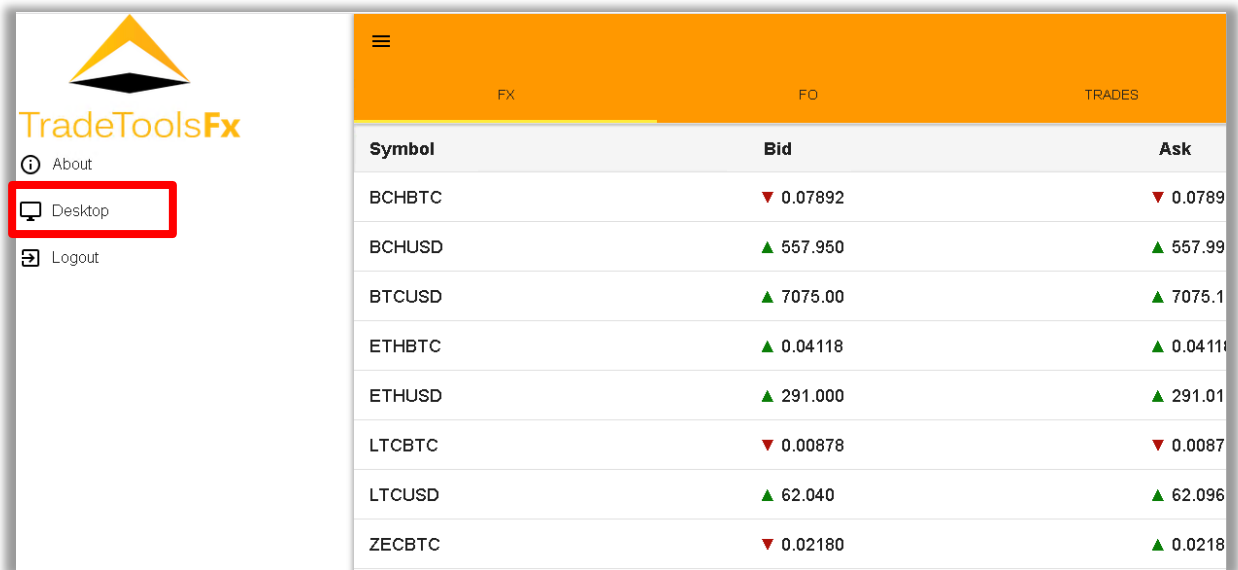

colours of various charts elements

Common color theme to “Dark” or “Bright”

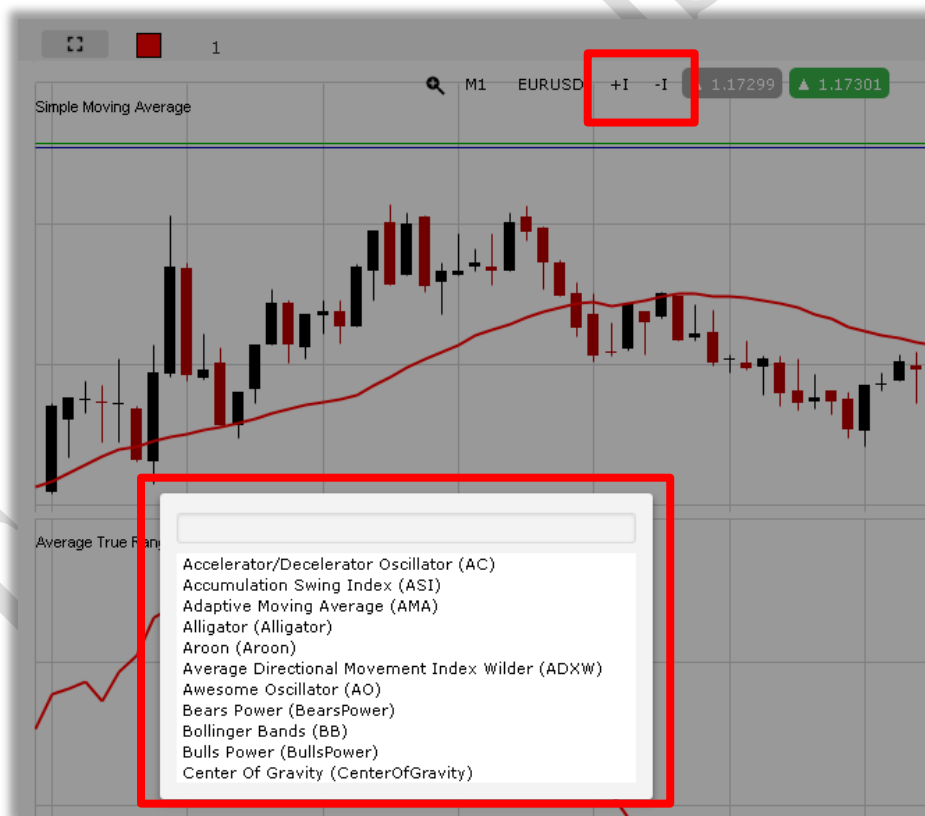

Switch common layout to “Desktop” or “Touch” version

Symbol	Bid	Ask
BCHBTC	▼ 0.07892	▼ 0.0789
BCHUSD	▲ 557.950	▲ 557.99
BTCUSD	▲ 7075.00	▲ 7075.1
ETHBTC	▲ 0.04118	▲ 0.0411
ETHUSD	▲ 291.000	▲ 291.01
LTCBTC	▼ 0.00878	▼ 0.0087
LTCUSD	▲ 62.040	▲ 62.096
